Hello everyone,

Thanks for all the prayers and thoughts we have had up til now, we really appreciate them.

We would love to update you with some new prayer points:

- **Working Cars:** Transportation is essential to running the orphanage. Cars are needed for many reasons including important journeys to doctors and hospital appointments as well as general grocery shopping and school runs. Recently the some of the cars have broken down and this puts a lot of pressure and strain on various people and functions. Please pray that the cars get foxed quickly and that they remain working.
- **Thea:** The lady that owns and runs the orphanage has been unwell today. Please pray for good health and that she recovers soon.
- **Energy:** Lots of our days start at 5am and finish at 7pm. These long hard working days can sometimes leave us tired so please pray for renewed energy and enthusiasm on a daily basis.
- **Home Schooling and Homework:** We are involved with helping some of the older children with their home work. We also help 2 children during the day with their home schooling. It has been challenging at times because for various reasons they struggle with their learning. One boy Benjamin, who got badly burnt on his face a few years ago, has real trouble and is still coming to terms with his injuries. One thing it is having an affect on is his education. Please pray that we can educate and motivate all these children as best as possible. Please pray that they can focus and concentrate during their learning as best as possible.

Thanks once again for your thoughts and prayers we really appreciate them!

Love,

Heidi and Christian
