Phatfish

Phatfish have been performing together and leading thousands in worship over the last 14 years. As well as being a highly respected 'gigging' band with several best selling albums to their credit, they are also very experienced worship musicians. They have led worship at many high profile events in Europe and North America, and have worked with many of today's best known worship leaders including Stuart Townend, Matt Redman, Tim Hughes and Graham Kendrick.

The most recent Phatfish album 'Guaranteed' has received rave reviews and highlights the band's passionate commitment to worshipping their creator. This event in Crawley whilst certainly entertaining, also promises to be a wonderful opportunity to encounter God and worship Him with renewed zeal. Phatfish will be performing a selection of their best loved songs, before leading a dynamic time of corporate worship. Expect to come and meet with an Amazing God!
